

Inquiry form

1. Which materials and units are subject to be grouted?

.....

2. Additional information concerning the material (e. g. surface condition, form, humidity content etc.):

.....
.....

3. Volume:

.....

4. Hardness: elastic
 tough
 soft

5. Description of the subsequent utilisation:

.....

6. Operational demands: Type of strains, e. g. temperature, interior or exterior application etc.

.....

Chemicals or other media, e. g. cooling agents:

.....

Mechanical strains, e. g. vibration, impact, displacement, tensile load, shear stress or pressure etc.:

.....

7. After which time will the further processing take place?

.....

8. Grouting volume:

9. Batcher required? ja nein
