+49 (0) 228 / 19 240 (Advice in German) Information center against poisoning Bonn

# **SECTION 2: Hazards identification**

# Classification of the substance or mixture

# Classification according to Regulation (EC) No 1272/2008 [CLP]

The mixture is classified as hazardous according to regulation (EC) No 1272/2008 [CLP].

Skin Irrit. 2 / H315 Skin corrosion/irritation Causes skin irritation. Eye Irrit. 2 / H319 Serious eye damage/eye irritation Causes serious eye irritation. Skin Sens. 1 / H317 Respiratory or skin sensitisation May cause an allergic skin reaction.

Aquatic Chronic 2 / H411 Hazardous to the aquatic environment Toxic to aquatic life with long lasting effects.

2.2. Label elements

The product is classified and labelled according to EC directives or corresponding national laws.

# Labelling according to Regulation (EC) No. 1272/2008 [CLP]

# **Hazard pictograms**

### Warning

# **Hazard statements**

H315 Causes skin irritation. H319 Causes serious eye irritation. H317 May cause an allergic skin reaction. Toxic to aquatic life with long lasting effects. H411

### **Precautionary statements**

Avoid breathing vapours. P261

P273 Avoid release to the environment.

P280 Wear protective gloves.

P302 + P352 IF ON SKIN: Wash with plenty of soap and water.

P333 + P313 If skin irritation or rash occurs: Get medical advice/attention.

P501 Dispose of contents / container to a certified waste management company.

### Hazard components for labelling

bis-[4-(2,3-epoxipropoxi)phenyl]propane

Bisphenol A propoxylated 1,6-hexanediol diglycidyl ether

Bisphenol-F-epichlorohydrin resin with molecular weight <= 700

Methyl toluene-4-sulfonate

# according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) 2020/878

4 07134 A0000 Article No.: epple 07134

Revision date 16.05.2023 Print date 16.05.2023 Version

Page 2 / 11 16.05.2023

### Supplemental hazard information

**EUH205** Contains epoxy constituents. May produce an allergic reaction.

#### 2.3. Other hazards

No information available.

This product contains respirable quartz. In the present physical form (liquid/pasty) and during the processing of the product, no dust is generated, so inhalation is not to be expected. Classification and labeling with STOT RE 1 / H372 is therefore not Depending on handling and use (e.g. grinding), the formation of airborne necessary. respirable crystalline silica is possible. Prolonged and/or intensive inhalation of respirable crystalline silicon dioxide can cause dust lung disease (silicosis).

# **SECTION 3: Composition/information on ingredients**

#### 3.2. **Mixtures**

EP-resin on bisphenol A-EP base filled Description

# Additional information

Full text of classification: see section 16

# **SECTION 4: First aid measures**

# 4.1. Description of first aid measures

# **General information**

In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness give nothing by mouth, place in recovery position and seek medical advice.

# In case of inhalation

Remove casualty to fresh air and keep warm and at rest. In case of irregular breathing or respiratory arrest provide artificial respiration.

# Following skin contact

# according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) 2020/878

Article No.: 4 07134 A0000 epple 07134

Print date 16.05.2023 Revision date 16.05.2023

Version 8.0 16.05.2023 Page 3 / 11

Take off immediately all contaminated clothing. After contact with skin, wash immediately with plenty of water and soap. Do

### After eye contact

Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Seek medical advice immediately.

# Following ingestion

not use solvents or thinners.

If swallowed, rinse mouth with water (only if the person is conscious). Seek medical advice immediately. Keep victim calm. Do NOT induce vomiting.

# 4.2. Most important symptoms and effects, both acute and delayed

In all cases of doubt, or when symptoms persist, seek medical advice.

### 4.3. Indication of any immediate medical attention and special treatment needed

First Aid, decontamination, treatment of symptoms.

# **SECTION 5: Firefighting measures**

# 5.1. Extinguishing media

### Suitable extinguishing media

alcohol resistant foam, carbon dioxide, Powder, spray mist, (water)

# Unsuitable extinguishing media

strong water jet

### 5.2. Special hazards arising from the substance or mixture

Dense black smoke occurs during fire. Inhaling hazardous decomposing products can cause serious health damage.

### 5.3. Advice for firefighters

Provide a conveniently located respiratory protective device. Do not allow water used to extinguish fire to enter drains, ground or waterways. Cool closed containers that are near the source of the fire.

# **SECTION 6: Accidental release measures**

# 6.1. Personal precautions, protective equipment and emergency procedures

Keep away from sources of ignition. Ventilate affected area. Do not breathe vapours.

# 6.2. Environmental precautions

Do not allow to enter into surface water or drains. If the product contaminates lakes, rivers or sewages, inform competent authorities in accordance with local regulations.

# 6.3. Methods and material for containment and cleaning up

Isolate leaked material using non-flammable absorption agent (e.g. sand, earth, vermiculit, diatomaceous earth) and collect it for disposal in appropriate containers in accordance with the local regulations (see section 13). Clean using cleansing agents. Do not use solvents.

### 6.4. Reference to other sections

Observe protective provisions (see section 7 and 8).

# **SECTION 7: Handling and storage**

### 7.1. Precautions for safe handling

# Advices on safe handling

Avoid contact with skin, eyes and clothes. When using do not eat, drink or smoke. Personal protection equipment: refer to section 8. Follow the legal protection and safety regulations.

# **Further information**

Vapours are heavier than air. Vapours form explosive mixtures with air.

# 7.2. Conditions for safe storage, including any incompatibilities

# Requirements for storage rooms and vessels

Storage in accordance with the Ordinance on Industrial Safety and Health (BetrSiVO). Keep container tightly closed. Do not empty containers with pressure - no pressure vessel! Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks. Soils have to conform to the "Guidelines for avoidance of ignition hazards due to electrostatic charges (TRGS 727)".

### Hints on joint storage

Keep away from strongly acidic and alkaline materials as well as oxidizers.

### Further information on storage conditions

# according to Regulation (EC) No. 1907/2006 (REACH) according to Regulation (EU) 2020/878

Article No.: 4 07134 A0000 epple 07134

Print date 16.05.2023 Revision date 16.05.2023

Version 8.0 16.05.2023

Page 4 / 11

Take care of instructions on label. Store in a well-ventilated and dry room at temperatures between 5 °C and 30 °C. Protect from heat and direct sunlight. Keep container tightly closed. Remove all sources of ignition. Smoking is forbidden. Access only for authorised persons. Store carefully closed containers upright to prevent any leaks.

### 7.3. Specific end use(s)

Observe technical data sheet. Observe instructions for use.

### SECTION 8: Exposure controls/personal protection

#### 8.1. Control parameters

### Occupational exposure limit values

Titanium dioxide

EC No. 236-675-5 / CAS No. 13463-67-7

TWA: 10 mg/m3

Remark: inhalable aerosol

#### **Exposure controls**

Provide good ventilation. This can be achieved with local or room suction. If this should not be sufficient to keep aerosol and solvent vapour concentration below the exposure limit values, a suitable respiratory protection must be used.

### Personal protection equipment

### Respiratory protection

If the workplace limit values (AGW) are exceeded, a suitable breathing apparatus must be worn. Observe the wear time limits according GefStoffV in combination with the rules for using respiratory protection apparatus (BGR 190). Use only respiratory protection equipment with CE-symbol including four digit test number.

Use filter / combination filter according to EN 14387. Suitable respiratory protection apparatus: ABEK-P2

# Hand protection

For prolonged or repeated handling the following glove material must be used: NBR (Nitrile rubber)

Thickness of the glove material > 0,4 mm; Breakthrough time: > 480 min.

Observe the instructions and details for use, storage, maintenance and replacement provided by the protective glove manufacturer. Penetration time of glove material depending on intensity and duration of exposure to skin. Recommended glove articles EN ISO 374

Barrier creams can help protecting exposed skin areas. In no case should they be used after contact.

# Eye/face protection

Wear eye glasses with side protection according to EN 166.

### **Body protection**

Wear antistatic clothing of natural fibers (cotton) or heat resistant synthetic fibers.

### **Protective measures**

After contact clean skin thoroughly with water and soap or use appropriate cleanser.

### **Environmental exposure controls**

Do not allow to enter into surface water or drains. See section 7. No additional measures necessary.

# **SECTION 9: Physical and chemical properties**

# 9.1. Information on basic physical and chemical properties

Physical state: Liquid Appearance: viscous Colour: beige Odour: odourless **Odour threshold:** not applicable

Causes skin irritation.

Causes serious eye irritation.

Methyl toluene-4-sulfonate

Skin, Rabbit (24 h): Evaluation strongly irritant. eyes, Rabbit (24 h): Evaluation mild irritant.

Titanium dioxide

Skin:, Rabbit: Evaluation non-irritant.

Method: OECD 404

Eyes:, Rabbit.: Evaluation non-irritant.

Method: OECD 405

### Respiratory or skin sensitisation

May cause an allergic skin reaction.

Titanium dioxide

Skin, Mouse: ; Evaluation not sensitising.

Method: OECD 429

## CMR effects (carcinogenicity, mutagenicity and toxicity for reproduction)

Based on available data, the classification criteria are not met.

### STOT-single exposure; STOT-repeated exposure

Based on available data, the classification criteria are not met.

### **Aspiration hazard**

Based on available data, the classification criteria are not met.

# Practical experience/human evidence

Based on the properties of the epoxy constituents and considering toxicological data on similar preparations, this preparation may be a skin sensitiser and an irritant. It contains low molecular weight epoxy constituents which are irritating to eyes, mucous membrane and skin. Repeated skin contact may result in irritations and sensitizations, possibly due to a cross-over sensitization with other epoxy compounds. Skin contact with the preparation and exposure to spray mist and vapour should be avoided.

# Overall assessment on CMR properties

The ingredients in this mixture do not meet the criteria for classification as CMR category 1A or 1B according to CLP.

### Remark

There is no information available on the preparation itself.

# 11.2. Information on other hazards

# 15.2. Chemical Safety Assessment

# For the following substances of this mixture a chemical safety assessment has been carried out:

EC No.	Designation	REACH No.	
CAS No.			
216-823-5	bis-[4-(2,3-epoxipropoxi)phenyl]propane	01-2119456619-26	
1675-54-3			
240-260-4	1,6-hexanediol diglycidyl ether	01-2119463471-41	
16096-31-4			
500-006-8	Bisphenol-F-epichlorohydrin resin with molecular weight <= 700	01-2119454392-40	
9003-36-5			
201-283-5	Methyl toluene-4-sulfonate	01-2120211468-59	
80-48-8			
500-097-4	Bisphenol A propoxylated	01-2119541780-41	
37353-75-6			
236-675-5	Titanium dioxide	01-2119489379-17	
13463-67-7			

# **SECTION 16: Other information**

# Full text of classification in section 3:

STOT RE 1 / H372 STOT-repeated exposure

affected, if known) through prolonged or repeated exposure (state route of exposure if it is conclusively proven that no other routes of exposure cause the hazard).

Skin Irrit. 2 / H315 Skin corrosion/irritation Causes skin irritation.

Eye Irrit. 2 / H319 Serious eye damage/eye irritation Skin Sens. 1 / H317 Respiratory or skin sensitisation Aquatic Chronic 2 / H411 Hazardous to the aquatic environment Aquatic Chronic 3 / H412 Hazardous to the aquatic environment

Acute Tox. 4 / H302 Acute toxicity (oral) STOT SE 3 / H335 STOT-single exposure

May cause respiratory irritation. Carc. 2 / H351 Carcinogenicity Suspected of causing cancer (state route of

> exposure if it is conclusively proven that no other routes of exposure cause the hazard).

Toxic to aquatic life with long lasting effects.

Harmful to aquatic life with long lasting effects.

Causes serious eye irritation.

Harmful if swallowed.

May cause an allergic skin reaction.

Causes damage to organs (or state all organs

# Classification procedure

Classification for mixtures and used evaluation method according to regulation (EC) No 1272/2008 [CLP]

Skin Irrit. 2 Skin corrosion/irritation Calculation method. Eye Irrit. 2 Serious eye damage/eye irritation Calculation method. Skin Sens. 1 Respiratory or skin sensitisation Calculation method. Hazardous to the aquatic environment Aquatic Chronic 2 Calculation method.
